Item 4. Purpose of the Transaction

Item 4 of the Initial Statement is hereby amended to add the following:

We commend Tidewater's Board of Directors for its dramatic actions in the second half of 2019. The Board has:

- replaced its Chief Executive Officer,
- reduced the number of independent Board members by 1/3,
- appointed a new Board Chairperson,
- approved management's resizing and rejuvenation of its corporate management,
- approved management's plan to repurchase \$125 million of its senior debt,
- approved management's plan to amend the indenture for the senior debt to facilitate merger transactions and asset optimization, and
- approved management's plan to bid on 33 OSVs owned by Bourbon plc in their French reorganization.

This series of strategic moves hurt 2019 financial results but advances Tidewater as uniquely positioned. As long-term investors, we applaud these bold moves despite the market's failure to recognize the benefits from these actions let alone appreciate the company's differentiated financial position.

Separately, fundamentals (utilization rates and day rates) have been improving for well over a year. Today there is limited availability of high-spec vessels. Tidewater is well positioned to benefit as demand for OSVs improves.

We look forward to management's plans for 2020, especially its vision on generating shareholder Free Cash Flows in 2020, a goal we believe achievable.

We also note well-respected OSV industry analyst Turner Holmes at Clarkson's plc highlighting that recent transactions, in the industry's current depressed situation, indicate Tidewater's active fleet is worth in excess of 2x the company's current enterprise value.

We reiterate our view that consolidation is a logical and achievable goal which would further accelerate the realization of Free Cash Flow, capitalizing on its financial position, driving increased access to capital and opportunistic, per share value creation at Tidewater.
